Summary

I am a Cyber Security student at Michigan Tech with experience in programming, hardware, network administration, and cyber security. As an intern at Ford's Cyber Defense Center, I developed a python script to automate a tedious task, reducing the time required for the project by over 90%. Additionally, as an Eagle Scout, I have developed leadership and teamwork skills. I am always seeking opportunities to learn and advance in the field of technology and cyber security.

Experience

Cyber Security Intern
Amway

May 2023 - Aug 2023 (4 months)

Worked within Amway's ISR Engineering and Ops team. Using the Mitre Attc&k framework I was able to identify gaps and suggest mitigations to help improve Amway's global security posture.

Cyber Defense Tools and Automation Intern
Ford Motor Company

May 2022 - Jul 2022 (3 months)

Working as an intern in the Ford Cyber Defense Center. performed an audit of Ford's supplier connections to minimize the number of points of entry into Ford's internal system.

Web Developer
Sun & Snow Sports

Sep 2020 - Oct 2021 (1 year 2 months)

Worked on a new and improved website with an IMS and e-commerce functionality to allow for current and future growth
